

## 2009 KPhA Annual Meeting & Awards Ceremony - Conference Evaluation

1. The length of this year's Annual Meeting and Tradeshow was....

  1   Too long                        4   Too short                      10   Just right

2. The number of CE offered at this year's event was....

  0   Too many                      11   Too few                        3   Just enough

3. The opportunities for socializing and networking were...

  0   Too many                        2   Too few                      13   Just enough

4. Overall, were the educational topics presented at this year's event of value to you?

15   Yes                                0   No

Comments:

1. The diabetes program could have been twice as long – Debbie is a great teacher and there's so much info to cover.
2. Let us know what activities have CEUs associated with them and how many hours of CEUs per activity on the program, please!
3. Excellent CEs and especially excellent presentation on PBRNs. We must promote this to all KS pharmacists as much as possible. We're all very busy but this is a huge potential profit source as well as scientific source!
4. Good topics & presenters.
5. Three days was too long. It seemed like everything could have been done on Friday & Saturday.

5. On a scale of 1-10, with 10 being the highest, how would you rate the following?

Hotel facility	<u>  8.6  </u>
Food quality and catering	<u>  7.7  </u>
KPhA staff assistance	<u>  9.3  </u>
Hotel staff assistance	<u>  9.2  </u>
Quality of the non-educational events	<u>  8.7  </u>
Value compared to services received	<u>  8.4  </u>

6. What could the association have done to make this conference more beneficial to you?

1. Have student specific events to encourage student participation.
2. More CEU hours. More info for hospital pharmacists would be good too. Let members know that this year's programs were optional. Look for more clinical info next year.
3. Have some programs geared more toward techs.
4. Every year we come to the meetings and ask for more topics for techs and yet again, no topics for techs. Please help us out. If not here, than let us know where we can get info.
5. We disappointed students were not more present all day long, and not allowed to listen in on KPSC.
6. More available CE.
7. The location of the Ramada Inn was not given in the initial notice – that would be helpful.
8. Offer more CE options.

7. What suggestions do you have for educational sessions for upcoming conferences?
  1. Bring back the lady who talked about diabetes for at least 2 hours.
  2. Again, ACPE CE certification.
  3. Same as in the past.
  4. More opportunities for techs.
  5. Hot topics – these were great this year.
  6. Experts on the New Health Reform if passed by Congress. Obesity/Stress Seminar would be great.
  7. The diabetes lady was great – I'd have her back – I'm sure she has more info for us – it's always developing.
  8. Dermatology and geriatrics.
  
8. What comments do you have about any aspect of this year's Annual Meeting and Tradeshow?
  1. Wine tasting was great – Maybe a beer tasting would draw a crowd.
  2. It was enjoyable.
  3. Enjoyed and met some great people.
  4. Great peer interaction. Debbie Hinnen is always a great speaker! Always a good experience.
  5. What happened?!
  6. I was pleased to represent hospital pharmacy at the reception. Pharmacy students were interested in my wisdom of pharmacy career and especially hospital. My value was not to receive but to give information of my career to pharmacy students. They were receptive to my inspirational stories. I was surprised that only one vendor was present (Pharmacy Drug Vendor).
  7. Awards banquet: have vegetarian meal available. Start an award for students (based on involvement, academics, leadership...something like that). This will make the banquet more interesting for students. Next year, it will be easy & inexpensive for students to come to the annual meeting – give them a bigger incentive.
  8. Enjoyed the wine event.
  9. Just right for the 2<sup>nd</sup> meeting of the year.
